Sir,

Sub: AMRUT 2.0- Augmentation of Water Supply to Kollam Corporation-
Proposed Laying of Clear water pumping main through NH Bypass from
chainage 486/500 to 498/00 (Kaavanad towards Mevaram) – Reg.

Vide reference 1,3,5 & 6 permission has been sought for laying the 700mm - 300mm DI pipes across the NH-66 from Kaavanad to Mevaram Junction.

As per the reply received vide reference 7, submitting herewith the necessary required documents complying the MoRTH specifications. The proposal may be considered favorably, at present, as the road widening works are progressing at a steady rate. The distribution of the treated water from the new scheme, entirely depends upon laying of this

pipelines across the NH-66, conveying water to the newly constructed 15LL capacity overhead reservoir on Anchalumoodu, feeding existing tanks at Moonamkutty, Mathilil and Kaavanad respectively.

Expecting a favourable decision from your goodself at the earliest.

Yours Faithfully
